Dear Parent,

Educating our kids will be in vain if their future is not secured with safe world. Today the environmental activism has begun among school going children as the world's most impactful climate change movement is led by a Swedish teenager, Greta Thunberg. It is highly essential now that our kids are sensitized and educated with environment friendly activities for their sustainable future.

Keeping this dutiful objective in mind, we have developed a novel feature in our ICSK Cloud app called 'Flora Snap'. As the kids love to learn in a playful manner, this is our attempt to make tree plantation a gamified activity. With this, ICSK has resolved to plant **20,000 trees** within next one year. We are confident that you along with your wards will join hands with us, as always, in making this mission a success.

All you or the child need to do is – click on the 'Flora Snap' in ICSK Cloud app menu. The module will open with two main headings named as 'Snaps' and 'Achievements'. Under 'Snap' at right corner, you will find a '+' (plus) sign. Click on it for adding snaps of tree planting activity **by you or your ward**. You will be directed to camera or gallery for adding the picture. Once the snap is added, you will find on the top a tree getting added in your account and you will also see the statistics of total plantations. Once you click on the next heading 'Achievements', you will see the number wise levels of achievements to be accomplished. On planting first 2 trees, you will be in the stage of 'Apprentice'. Then up to 5, in 'Eco Friend, up to 10 'Backyard Farmer' and so on... till you reach to the stage of 'Ozone protector' on planting 100 trees. Isn't it interesting? **Rest assured we would be one of the first in the world to take up such initiative digitally.**

FLORA APP LEVELS - INDIVIDUALS

- ① **1 Plant**
Apprentice Congratulations
You had taken the first step towards fixing our mother earth
- ② **3Plants**
Eco -friend
Thanks Every tree counts
- ③ **5 Plants**
Backyard farmer★
Bravo You care for nature
- ④ **10 Plants**
CO²Fighter
All the best you are fighting for the right cause
- ⑤ **20 Plants**
Global cooling activist
Awesome – you are on a mission
- ⑥ **25 Plants**
Environmentalist★★
Great ! You are getting responsible
- ⑦ **30 Plants**
Green comrade
Partner with more friends to make the world greener
- ⑧ **50 Plants**
Rain maker★★★
May be your effort is paying back in form of rain
- ⑨ **60 Plants ★★★★★**
Reforestor
Terrific – You are experiencing nature first hand
- ⑩ **75 Plants**
Climate Changer ★★★★★
Praise worthy – Thank you for making people breathe clean air
- ⑪ **100 Plants**
Ozone Protector
Inspirational – You are changing the world

We are sure, in order to prevent our mother earth from global warming, each one of us has to be an ozone protector. Our children will surely be motivated to reach to this level by planting more and more trees and be the savior of nature. Please note that, the trees can be planted anywhere in the world. But beware, if the snap is not found genuine, the teacher cannot approve it and it will then be deleted from your account. So, hurry up and get on the mission for the mother earth.

For further information and guidelines please follow the youtube link mentioned below.
