Dear Parent,

Student security does not restrict itself merely within the school walls; it accompanies the child on their path towards their educational goals.

A recent occurrence has exposed the need for security in matters related to school transportation. A few days ago, a private transport driver posed as the school transport and forced a parent to leave the child with him. The reliability of the education system extends to our staff and faculty members - even the transportation contractors. Parents are requested to trust only the school transport and track it constantly. The school transport vehicles will carry the school name plate & number during pickups and drops. Kindly be vigilant while sending the children through transport. The safety and security of our children is of utmost importance to the school system. We solicit your wholehearted cooperation in this regard.

I would also like to inform you that both the school uniform & sports uniform are available in the school store. Based on the constant suggestions by some of the members of the parent community, ICSK has changed the material of the sports uniform. Now the uniform is available with better quality material for your convenience. The uniforms and school shoes are available in all the four branches of ICSK on all the days of the week including Fridays & Saturdays from 4.00 p.m. to 8.00 p.m. In addition to that on Saturdays it is available from 8.00 a.m. to 2.00 p.m. Please also note school shoes are available at 10% discount. I request your unstinting support in this regard and would like to once again express our sincere gratitude to you all.

Regards

Dr. V. Binumon
